

# Toll scenarios and events

**PTV Europe City Map Premium 2022.1H**

the mind of movement

Each scenario is caused by a defined event in reality for which different successive event versions may exist. For example, in France a new tariff table would be an event, an estimate on the future toll on secondary highways would be another event. As the knowledge about future tolling schemes increases, new versions of one specific event come into play, each in turn superseding the previous event version. The following document presents all events and event versions for countries with more than just the standard toll tables. The header contains: ISO3COUNTRY-EVENT-EVENTVERSION and the file number in brackets.

# Andorra

## Andorra January 2021

AND Event 5.1 ( TollScenarioID 1 )

Content: This scenario contains the most recent tariffs, valid from January 2021. New tariffs for Tunnel d 'Envalira. This scenario replaces the previous 'Andorra January 2019' scenario. Type of calculation: Exact.

Source: Tunnel d'Envalira

Valid from: 20210101

Relevance: 100

# Austria

## Austria July 2021

**AUT Event 19.1 ( TollScenarioID 1 )**

Content: New toll rates for Felbertauerntunnel valid from 1st July, 2021. This scenario replaces the previous scenario 'Austria January 2021 v2'. Type of calculation: Exact.
